

ESTATE CUTTERS

ERM SERIES

13 or 17.5 HP • 48", 60"

EM SERIES

10.5 or 13 HP • 54", 60"

Model EM-513

ESTATE SERIES CUTTERS are ideal for applications that utilize utility vehicles, riding mowers, garden tractors, and ATV's as the primary towing vehicle. **ERM Series** Rough Cut Mowers are designed to cut areas of heavy growth, large heavy weeds and groom hard to manage areas. Both models can offset left or right for mowing next to obstructions if needed. With a minimum of maintenance the rough cut mower will provide many years of trouble free service. **EM Series** Finishing Mowers are a well built design for use on many types of terrain and feature rear discharge to allow mowing close on both sides and can be offset left or right to add additional cut to a garden tractor or riding mower. The 54" model cutting height is adjusted at each wheel where the 60" model can be adjusted from a single point.

Model EM-S54

WARNING: For non-agricultural use, OSHA, ASAE, SAE and ANSI standards require the use of chain guards or other protective guards at all times. We also strongly recommend the use of such guards for agricultural uses to reduce the risk of property damage, serious bodily injury or even death from objects thrown out by or from contact with the cutting blades.
