

ESTATE RAKES

ER-6 SERIES

8 - 16 HP ● 48"

ER-62 SERIES

14 - 30 HP ● 96"

ER SERIES ESTATE RAKES are high quality constructed and feature a unique design which allows the flexibility to effectively cover uneven ground while raking leaves or trash covered areas that were formerly too large to cover by hand. By adding weight to the weight boxes the rake becomes more aggressive for de-thatching applications. In most conditions, several windrows can be rolled together to save cleanup time. Both models can be pulled behind lawn or garden tractors or ATV- utility vehicles. When not in use arms are removable and the frame folds up for storage.
