

ARROWHEAD ROCKDRILL ACP Series Plate Compactors

ARROWHEAD ROCKDRILL, a world leader in Construction Attachment technology and innovation, offer a full line of , **MADE IN USA**, vibratory plate compactors for use in:

- Backfill trench compaction
- Sheet, post and pile driving
- Superior soil compaction

ALL **ARROWHEAD ROCKDRILL ACP plate compactors** employ a unique '**V profile**' design delivering superior vibration suppression by the use of oversized in line dampening mounts.

Constructed from the highest quality steels, US made bearings and robust ,US built oversized hydraulic motors ACP compactors are designed to provide a long service life with minimal maintenance.

By incorporating **Oil Splash Technology** the bearings are auto lubricated to prevent downtime and maximize productivity as there is no greasing required.

The simplicity, quality and reliability of **ARROWHEAD ROCKDRILL ACP** plate compactors ensure maximum return on investment and jobsite efficiency that provides a competitive edge .

Specifications

Model	ACP 200	ACP 350	ACP 550	ACP 800	ACP 1600	ACP 2400
Vibratory Force/lbf	2000	3500	5500	8000	16000	24000
Frequency (at max. flow)/vpm	2100	2100	2100	2100	2000	2000
Operating Weight/lbs	250	520	780	980	1350	2250
Base Plate Size/inches	8x20	11.5x26	17.5x30	23.5x30	28x36	34x46
Oil Requirements/gpm	7-10	10-12	15-18	18-25	28-35	34-45
Working Pressure/psi	1500	1500	1500	1800	2000	2000
Carrier Weight/lbs	2250- 6750	5600- 11000	9000- 19000	18000- 26000	22000- 33000	30000- 70000

All specifications subject to change without notice. Arrowhead Rockdrill reserves the right to make product improvement/changes as necessary.

All Arrowhead Rockdrill products are backed by a 12 month manufacturers Warranty against defects and workmanship.

When ordering please quote the appropriate model number s of the required compactor and notify Arrowhead Rockdrill of the mounting carrier with any special bracket requirements as necessary.
